

now said that Khrushchev removed his missiles from Cuba and in return Kennedy removed our missiles from Turkey

This is fine
Removing our missile from Turkey was
Khr's second proposal. If JFK had left he
could not agree to that even though last
his earlier orders that they be removed
had been ignored

He said that in return for the removal
of the USSR's missiles in Cuba we would
guarantee Cuba against invasion from the
US and that this was the solution to
the Cuba missile crisis
